ABOUT COMPANY

Welcome to our exciting organization. An organization that embraces change and the opportunity to continuously improve

STANDARDS ASSURE FZE, located in Sharjah free zone United Arab Emirates, provides integrated, end-to-end solutions locally & globally, helping organizations of all sizes develop world-class management systems & standards to improve the efficiency and effectiveness of their business processes.

Besides UAE, our clientele is spread over more than 30 countries across almost all industries. STANDARDS ASSURE FZE is known for its Quality Services on time, maintaining total impartiality and confidentiality in its operation with highly competent personnel.

Our expert teams work with organizations of all sizes and every type of activity - from leading multinationals to small, innovative start-ups with a proven record in not just achieving certification for our client's management systems but in going further to establish a 'Lean Business Management System' that is working for the business, tailored to the business and benefiting the business.

OUR VISION

STANDARDS ASSURE FZE vision is to follow and apply the highest standards of Professionalism and Corporate Ethics in relation to People, Society, and the Environment and to progressively become a leading group of companies with a wide range of services offering the greatest possible benefits to all stakeholders.

OUR MISSION

STANDARDS ASSURE FZE mission is to offer its services to customers and stakeholders in a professional and ethical manner, thus making our company the Strategic Partner of choice that will empower clients and stakeholders to achieve their own objectives.

OUR VALUES

STANDARDS ASSURE FZE is committed to providing value to its customers, investing in its people, operating fairly and ethically, supporting the societies in which it operates, and ultimately creating long-term value for its shareholders - a fact that will ensure its continuity.

FOUNDER'S STATEMENT

At STANDARDS ASSURE FZE, we firmly believe that every business has the potential for improvement, and that's precisely what we aim to achieve. Through our comprehensive certification and training services, we empower businesses to instigate positive change and lay the foundation for sustained success. Recognizing the daily challenges that businesses encounter, we bring passion, commitment, and hard work to the forefront of our approach. Understanding our customers and their aspirations is at the heart of what we do.

Whether it's a small enterprise or a large corporation, we are dedicated to assisting organizations in enhancing their performance and perpetually building upon these advancements. Our focus isn't just on creating products; it's about making them better. By doing so, we actively contribute to our customers' ability to enhance their own products and services for the benefit of their clientele.

WHAT WE OFFER?

We provide accredited certification, training, and support services to help organizations improve their processes, performance, and services.

We specialize in management systems certification for:

BENEFITS OF ISO CERTIFICATION

**Better Business,
Better Regulation,
Better Products and Services!**

ISO Standards help businesses of any size and sector reduce costs, increase productivity, and access new markets. ISO standards provide a strong basis for the development of national and international regulation, helping save time and reduce barriers to international trade.

Addressing all these and more, International Standards mean that consumers can have confidence that their products are safe, reliable, and of good quality.

- Consistent Quality and Efficiency
- Increase in Customer Satisfaction
- Reduce Costs
- Improve Productivity
- Fewer Disruptions
- Improve control over the business
- Improve Employee Performance
- Identify Risks and Opportunities
- Prevent Problems from Reoccurring
- Boost Marketing and Sales Efforts
- Mandatory for Local & Federal Authorities Registration or Approvals.
- Mandatory for Public & Private Tender participations

ISO 9001:2015

QUALITY MANAGEMENT SYSTEM

ISO 9001 is a standard that sets out the requirements for a Quality Management System. It helps businesses and organizations to be more efficient and improve customer satisfaction. Implementing a quality management system will help you assess the overall context of your organization to clearly state your objectives and identify new business opportunities. - Put your customers first, making sure you consistently meet their needs and enhance their satisfaction. This can lead to repeat customers, new clients, and increased business for your organization. It also helps to work in a more efficient way.

- Increases productivity and efficiency, bringing internal costs down.
- Meet the necessary statutory and regulatory requirements.
- Expand into new markets, as some sectors and clients require ISO 9001 before doing business. - Identify and address

This certificate is suitable for all sizes and types of organizations and is well established around the world as an invaluable Quality Management System standard. It is suitable for organizations in all industrial sectors and help each organization to improve management processes to compete locally and globally.

ISO 14001:2015

ENVIRONMENTAL MANAGEMENT SYSTEM

ISO 14001:2015 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.

ISO 14001:2015 helps an organization achieve the intended outcomes of its environmental management system, which provide value for the environment, the organization itself, and interested parties. Consistent with the organization's environmental policy, the intended outcomes of an environmental management system include:

- Enhancement of environmental performance;
- Fulfillment of compliance obligations;
- Achievement of environmental objectives;

ISO 14001 can be used by any organization regardless of its activities or sector. Achieving this certificate can provide assurance to the company's management and its employees as well as its external stakeholders that environmental impact is being measured and improved.

SERVICES

ISO 45001:2018 **OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM**

ISO 45001:2018 specifies requirements for an occupational health and safety (OH&S) management system, and gives guidance for its use, to enable organizations to provide safe and healthy workplaces by preventing work-related injury and ill health, as well as by proactively improving its OH&S performance.

ISO 45001:2018 is applicable to any organization that wishes to establish, implement and maintain an OH&S management system to improve occupational health and safety, eliminate hazards and minimize OH&S risks (including system deficiencies), take advantage of OH&S opportunities, and address OH&S management system nonconformities associated with its activities.

ISO 45001:2018 helps an organization to achieve the intended outcomes of its OH&S management system. Consistent with the organization's OH&S policy, the intended outcomes of an OH&S management system include:

- Continual improvement of OH&S performance;
- Fulfillment of legal requirements and other requirements;
- Achievement of OH&S objectives.

ISO 45001 applies to all types of organizations. It doesn't matter what they do or what size they are. It can help any organization to prevent work-related injury and ill-health and to provide a safe and healthy workplace.

ISO 22716:2018 **GOOD MANUFACTURING PRACTICES (GMP)**

Good Manufacturing Practices (GMP) System ensures products are consistently produced and controlled according to quality standards. ISO 22716 is an International standard of good manufacturing practices (GMP) for perfume, cosmetics, pharmaceutical & other manufacturing companies. It describes the basic principles of applying GMP in a facility that produces finished products.

There are many benefits for companies who implement a fully compliant GMP program, which will substantially increase the quality of their product and increase revenues and customer satisfaction. Operating costs drop as rework and penalties due to non-compliance reduce and efficiencies increase. Help customers, employees, stockholders, regulators, and competitors develop sustainable respect for an organization that demonstrates product safety till consumption

SERVICES

ISO Certification

ISO 50001:2018

ENERGY MANAGEMENT SYSTEM

Energy Management System. ISO 50001 provides the most robust framework for optimizing energy efficiency in both public and private sector organizations. Effective implementation of energy management isn't just better for business, now but is considered a requirement.

ISO 13485 is a quality management standard for medical devices. It demonstrates the organization's commitment to providing products and related services that consistently meet customers and regulatory requirements applicable to the medical industry.

ISO 13485:2016

QMS FOR MEDICAL DEVICES

ISO 27001 is an international standard for information security management systems (ISMS). It provides a framework for organizations to systematically manage and enhance the security of their sensitive information, ensuring confidentiality, integrity, and availability. The standard covers aspects such as risk assessment, access control, cryptography, and incident response.

ISO 27001:2022

INFORMATION SECURITY MANAGEMENT SYSTEM

ISO 15189 is a medical laboratory management to achieve accreditation based on International standards. The ISO 15189 standard is the first developed especially for accreditation of medical laboratories and emphasizes the laboratory-client interface.

ISO 15189:2012

QMS FOR FOR MEDICAL LABORATORIES

ISO 37001:2016

ANTI-BRIBERY MANAGEMENT SYSTEM

The standard specifies requirements and provides guidance for establishing, implementing, maintaining, reviewing, and improving an anti-bribery management system (ABMS). This is an important move considering the continued prevalence of bribery and corruption.

This Standard applies to all organizations involved in the processing of food or in a business that is directly or indirectly related to the food products. Roles ranging from producers to serving and selling.

HACCP

HAZARD ANALYSIS CRITICAL CONTROL POINT

FSAS is a systematic approach to controlling food safety hazards within a food business in order to ensure that food is safe to eat. All businesses are required to put in place, implement and maintain an FSAS based on the principles of Hazard Analysis Critical Control Point (HACCP).
